LISS

Working Smart Working Safe Working Together

Apply for your LISS/CSCS SmartCard

Land-based Industry Skills Scheme (LISS) and
Construction Skills Certificate Scheme (CSCS)
is a jointly managed scheme (LISS/CSCS)

Recognised by BuildUK | Administered by BALI

bali.org.uk/lisscscs

**Do you
work in the
commercial
land-based
industry?**

**Looking
to upskill
your own
workforce?**

**Trouble
accessing
certain live
commercial
sites?**

Apply for a LISS/CSCS SmartCard and unlock your individual and/or companies potential with the following benefits:

- Enables you to work on live commercial land-based/construction sites
- Recognising your qualifications and training experience
- The latest industry specific health, safety and environmental awareness knowledge
- Improved employment prospects
- Enables the ability to tender for commercial work that requires a LISS/CSCS SmartCard
- Only need to renew every 5 years

Let's get started...

Step 1:

Every LISS/CSCS SmartCard holder **MUST** sit and pass a mandatory one day land-based health, safety and environmental awareness course called ROLO*. Further details on ROLO can be found in this leaflet.

Step 2:

Every LISS/CSCS SmartCard holder **MUST** sit and pass a mandatory CITB Touch Screen Test appropriate to the level of SmartCard you wish to apply for.

Step 3:

Find the right SmartCard for you. There are a range of SmartCards you can apply for, from Labourer to Manager level, across seven land-based sectors:

- Amenity
- Arboriculture
- Countryside Management
- Ecology and Environmental Management
- Landscape and Maintenance
- Modular Paving
- Pesticides and Pest Control

Step 4:

Check your qualifications are relevant to the SmartCard you are applying for.

Step 5:

Payment must be made to BALI prior to your LISS/CSCS SmartCard application being processed.

Visit [bali.org.uk/lisscscs](https://www.bali.org.uk/lisscscs)

*Modular Paving sector exempt from ROLO

Register of Land-based Operatives (ROLO)

ROLO is a specially designed one day health, safety and environmental awareness course, developed by BALI, for employees of companies operating in the land-based industry.

ROLO is a mandatory requirement to obtain a LISS/CSCS SmartCard*

Benefits of ROLO:

- Raising land-based industry standards for health and safety
- Reducing risks and accidents on site and in the workplace
- Enables employers to keep a record of workers competencies
- BuildUK recognised

BALI has a substantial number of approved BALI & ROLO Training Provider members operating across the UK.

To find your nearest Training Provider, visit bali.org.uk/lisscscs

*Modular Paving sector exempt from ROLO

What is NHSS & NHSS18?

The National Highways Sector Scheme (NHSS) is an industry led certification scheme for contractors and subcontractors working on the UK road network.

There are several schemes within NHSS, but Sector Scheme 18 (NHSS18) is for the Natural Environment and Landscape, including Ecology for Infrastructure, which is most appropriate to the land-based industry.

NHSS18 is a customised management system that is mandatory for all contractors working for Highways England and other infrastructure providers.

How to become compliant?

- Visit bali.org.uk/lisscscs
- Familiarise yourself with the National Highway Sector Scheme Booklet for NHSS18
- Locate a UKAS Registered Certification Body
- Gain accreditation

About BALI

The British Association of Landscape Industries (BALI) was established in 1972 and is the leading trade association for landscaping professionals, promoting, supporting and inspiring over 900 Registered organisations and individuals, including landscape contractors, garden designers, supplier and training provider members.

BALI exclusively administers LISS/CSCS SmartCards.

ROLO is developed by BALI and delivered by approved BALI & ROLO Training Provider members.
